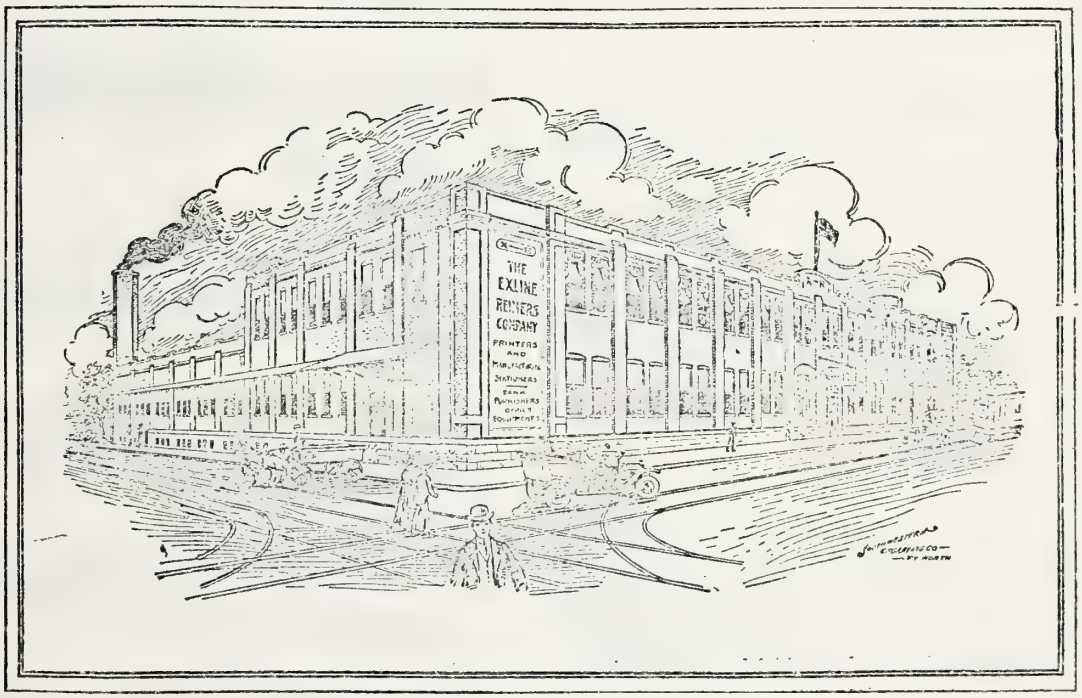
RETAIL STORE IN DALLAS PLANT IN FORT WORTH



Ask For Our Catalog No. 6

THE LARGEST MANUFACTURING STATIONERS' ESTABLISHMENT IN THE SOUTHWEST

200 Employes (SEE OVER) 70,000 Square Feet Floor Space

Here Are Some Evidences of Exline-Reimers Service

I wish to acknowledge receipt of full shipment of our 1914 catalogues printed by The Exline-Reimers Company recently and I take pleasure in thanking you for the personal interest you have taken in this issue and to extend our gratitude to each of your employees who contributed their best efforts to make this catalogue a masterpiece.

We have received a number of very gratifying compliments on this book and feel that no small part of it is due to the workmanship of The Exline-Reimers Company. The compilation of a catalogue of this size is no small undertaking and without the intelligent interpretation of our ideas in each of your departments it would have been impossible to have produced such elegant results within the limited time required in our contract.

Sanger Brothers,
L. E. McGee,
Wholesale Advertising Department.
Dallas, Texas.

* * *

The ledger was received Saturday and I am highly pleased with it. It is just what I wanted.

C. H. Church,
First National Bank,
Corsicana, Texas.

* * *

We are in receipt of yours of the 25th advising with regard to the shipment of embossed letterheads.

The letterheads were received and we wish to advise that we are very much pleased with the job. We think they are absolutely the finest high-class letterheads we have seen in a long time.

W. H. Holt, Cashier,
American State Bank,
McLean, Texas.

* * *

We are highly pleased with the catalogue. For accuracy and general "ensemble" your work cannot be surpassed. In our opinion anyone contemplating getting out a catalogue, will make a mistake if they do not consult you before placing the order.

A. Brandt Upholstering Co.
Fort Worth, Texas.

* * *

I have received very many compliments on the Journal, and as a whole the work is very satisfactory. I shall be pleased to figure again with you next fall.

Sam'l J. Rucker, Pastor,
Methodist Episcopal Church,
Coleman, Texas.

* * *

We are favoring your good concern with the bulk of our business and can truly state, without flattery, that we are getting better service and satisfaction from you than from any concern we have ever dealt with.

The First National Bank,
New Braunfels, Texas.

* * *

The shipment has arrived and we desire to thank you for your prompt attention.

U. S. Stewart, President,
The City National Bank,
El Paso, Texas.

* * *

Stationery supplies ordered from you on the 30th ult. have arrived, and we thank you for your promptness in filling the order.

E. S. Flippo, Mgr.,
Vernon Commercial College,
Vernon, Texas.

* * *

I am leaving the office, and wish to say to you that I did like to have your work, as I found it of the most satisfactory kind, good books, blanks in form and etc.

Tom Banks, County Clerk,
Red River County,
Clarksville, Texas.

Herewith find check to cover enclosed account. Permit me to thank you not only for your promptness in filling this order, but for the high degree of workmanship which is evidenced in its execution.

J. F. Stowe,
Sherman, Texas.

* * *

I wish to thank you for the prompt delivery of letterheads of which this is one. I have not one objection, and think that we have a mighty pretty job.

F. D. Oberthier, President & Cashier,
The Kilgore State Bank,
Kilgore, Texas.

* * *

It gives us a great deal of pleasure to state that our latest catalogue, as issued by your firm, was the best ever printed for us, and we compliment your firm highly, not only as to your promptness with which this job was turned out, but as to the workmanship in every particular.

It gives us a great deal of pleasure to know that there is a firm in Fort Worth capable of handling such jobs as this, and are sure we could not have secured a more carefully finished catalogue anywhere in the country.

Mr. Buckeridge, Sales Manager,
Monnig Dry Goods Company.

* * *

Shipment of A. B. C. checks received and I want to say to you that your promptness in filling the order greatly exceeded my greatest expectations. I shall not forget you in making future orders for anything in your line.

Jouett Allin, Cashier,
The First State Bank,
Copperas Cove, Texas.

* * *

We have just received and examined the first eight completed sections of our new General Catalogue and wish to express to you our appreciation of the manner in which the work is being turned out. We are very much pleased with it and if you succeed in delivering to us the balance of the Catalogue in as perfect condition as these sections, we are sure that we will have a book that will be a credit to your house and to ours. We felt that this word of appreciation was due you at this time.

Harris-Lipsitz Company,
Wholesale Dry Goods,
Dallas, Texas.

* * *

At four-thirty o'clock last Friday I turned in to your Company a thirty-eight page brief, which was printed and returned to me in tip-top shape just twenty-three and a half hours thereafter. I was compelled to get this work done so that the briefs could be mailed out on the afternoon following the day the copy was turned into you, and it was the greatest accommodation at all to me for you to undertake the work under the circumstances. I wish to express my appreciation.

B. B. Stone, Attorney,
Fort Worth.

* * *

The vouchers which you made for us were received by us in excellent shape and also the moistener came on good time, for which we thank you for your service and promptness.

Griffin Grocery Company, McAlester, Okla.,
By Bert C. Ratliff, Auditor.

* * *

We have received the 10,000 pamphlet catalogues, which you printed for us, and we take this occasion to say that we are highly pleased with the work which you gave us on this job. The cuts show up very nicely, and the catalogue, as a whole, is a very satisfactory job and one which we can send out throughout our territory and feel proud of, both from the point of the facts contained regarding The Ahrens & Ott Mfg. Co., and the class of workmanship on same.

The Ahrens & Ott Mfg. Co.,
B. L. Logan, Manager.

PIANOS

$25.00 FOR ONE CENT

You cant understand how we can afford to give money away like this. But we can, because you help us do it. This is how it is done. Take a one-cent postal card and write the names and addresses plainly of five prospective piano buyers and mail to us and we will send you by return mail a copy of our book of 52 choice songs free. If we sell to either of your prospective purchasers a piano for cash, we will at once mail you a check for $25. If we sell to either of your prospects on installments, you will receive $15 as the cash is paid in to us.

The Buyer Saves 40%

You do your friend a kindness, too, by giving us his name. Much of the cost of a piano is in the selling. You help us sell it at a nominal expense and the saving goes to the purchaser, as we save the salary and traveling expenses of agents. We are the Southwestern Distributors for a number of leading factories. Purchasers profit by this for we ship directly from our factories, thus giving our customers practically factory prices.

Address all mail to Department A,

Henderson Piano Company

FORT WORTH.

Population 92,252. The judicial seat of Tarrant county and the gateway to the Great Southwest has more trunk lines of railway than is possessed by any city in Texas. These include the C., R. I. & G., the Ft. W. & D. C., the Frisco Lines, the G. C. & S. Fe, the H. & G. C. Ry., the I. & G. N., the M., K. & T., the St. L. S. W., the T. & P. and the T. & B. V roads. These railway transportation advantages are not due so much to the enterprise of a progressive citizenship as to the natural industrial opportunities which logically invite them. Railroad builders are pioneers and have ever been so, but they do not push their way into territory that does not abound with opportunity and that does not promise reward in the way of compensatory tonnage and passenger traffic. They have found dividends on investments in Fort Worth and its contributary territory. Fort Worth is the greatest railroad center in the southwest and the point of interchange of fully 80 per cent of the traffic moving to and from the state.

The city has an area of 17½ square miles, an altitude of 619 feet above sea level, the commission form of government, an assessed valuation of $64,-253,937 on a basis of 66 2-3 of the actual values, a bonded debt of $5,576,000, a tax rate of $1.93 on the hundred, 150 miles of street, 60 miles of paving, 77 miles of electric street railway, 68 miles of interurban railway; 23 public schools with an enrolment of 13,057 pupils; Polytechnic College, Texas Christian University, St Ignatius Academy, Our Lady of Victory, Southwestern Baptist Theological Seminary, St. Andrew's School, Arlington Heights College and business colleges; 31 public parks and playgrounds with area of 550 acres, an abundance of natural gas piped from inexhaustible fields and supplied to the consumer at a very low rate; $6,000,000 water works plant, 49 modern hotels; a thoroughly equipped and efficient fire department; the largest and most modern power plant in the southwest capitalized at $3,560,000; the only steel rolling mill in the southwest; 5 modern and fully equipped hospitals; over 100 churches and a larger number of church societies; 21 newspapers and publications; 14 banks; 2 of the largest oil refineries in the state piping this fuel commodity to the door of the manufacturer; a larger payroll, a larger average wage, a larger number of laboring men, and less trouble with labor than any other city in the state; a larger percentage of people owning their own homes than in any city in the south; an average temperature of 68.2 for the past 16 years.

Fort Worth is the second livestock market and packing house center in the United States. Two of the big parent packing plants of the country now have extensive and modern branches here. These are Swift & Co. and Armour & Co. Allied with these are the stockyards interests and with the stockyards the horse and mule trade. The yards in a single day can handle 25,000 cattle, 10,000 calves, 15,000 hogs and 7,000 horses and mules. Each of the railroads centering at Fort Worth run directly into the yards over a belt line and 600 employes are kept busy in the yards caring for stock. The stockyards has its own paved streets, its own fire department, its own policing and a complete government of its own. Geographically it is the cattle metropolis of the southwest. In the Coliseum, erected as the exposition home of the National Feeders' and Breeders' Show, is one of the most capacious and attractive auditoriums of Texas. The National Feeders' and Breeders' Show holds its annual exposition at Fort Worth every March and gives out $30,000 prizes and exhibits between 7,000 and 8,000 head of livestock.

Fort Worth's importance as a grain and milling centre can best be judged from the enormous amount of business done by the mills and elevators located here. Although one of the youngest cities in the southwest to lay claim to being a grain center, the volume of grain handled in this city is second only to that handled in Kansas City, the acknowledged leading grain market of that vast territory known as the southwest.

Exclusive of the elevators operated by the flour and grain mills, there

can be found within the confines of Fort Worth ten large elevators with a total capacity of 2,000,000 bushels. In connection with the elevators there are five grain firms operating warehouses for the storage of grain, the capacity of these warehouses being slightly over 500,000 bushels.

The two big flour mills, which are the largest in this section of the United States, have a capacity of approximately 1,000,000 bushels. Thus it can be seen that the total facilities for caring for grain in this city have a grand capacity of approximately 3,500,-000 bushels, although these figures are augmented by several thousand when the smaller concerns in and immediately adjacent to Fort Worth are included. Hence the cry, "Ship your corn, oats, wheat, barley, rye and kaffir corn and milo maize, corn products, and other by-products of grain to Fort Worth," for this city is provided with the railroads, the trackage, the freight rates, the facilities for housing and handling all the grain the farmers can ship here.

The two largest flour mills have combined capacities of approximately 2,500 barrels of flour daily.

In addition to being the flour mill center of this section of the southwest, Fort Worth is making rapid strides towards being one of the chief corn products milling points of this section of the United States, for corn products are handmaidens of flour mills, and one of the important factors in successful milling.

In the way of public organizations Fort Worth probably has a greater number than any city in the southwest. First comes the Fort Worth Chamber of Commerce. Amongst its membership is included corporations, firms and individuals. Its functions are those looking to the upbuilding of the city.

Affiliated with the Chamber of Commerce is the Fort Worth Freight Bureau, an organization maintained by the firms and business people of the city to negotiate with the railroads with the view of improving the service and bringing about an equitable adjustment of freight rates on both inbound and outbound shipments, thus enabling the manufacturers and jobbers of this city to extend their trade territory in all directions and conserving to them the advantage which naturally belongs to them in their immediate territory.

The Fort Worth Real Estate Exchange includes in its membership all the real estate dealers in the city and meets weekly to discuss ways and means to generally improve the city. Forth Worth also has three credit associations. In Fort Worth is located the headquarters of the Texas Commercial Secretaries' Association, an organization composed of the commercial bodies, Chamber of Commerce and public organizations of all the cities in the state, with a general secretary in charge and a competent corps of assistants. The object of this association is to disseminate general information to all its constituent associations and clubs, and to generally promote the welfare of the state. The Cattle Raisers' Association of Texas maintains headquarters at Forth Worth, occupying a suite of five offices with their secretary and office force in charge, keeping full records of the brands of all the cattle raisers in the state and holding meetings from time to time to promote and help this great industry. Also the Farmers' Union of Texas maintain their headquarters at Forth Worth, with a secretary in charge. This organization also meets from time to time to discuss and devise ways and means to increase the products of the soil. The selection of Forth Worth as the headquarters of these state organizations is a just testimonial to advantage of location, as Forth Worth, with her superior railroad facilities and number of through sleeping cars, is reached quicker and easier than any city in the state.

The city has over 300 manufacturing and jobbing houses representing an investment in excess of $35,000,-000. With its unexcelled transportation facilities Forth Worth is destined to be the largest manufacturing and jobbing center of the southwest. Transportation, raw material and a ready market are advantages which cannot be offered by any other city in the entire southwest. With an inexhaustible supply at its very door, natural gas and oil from the largest field in the world, the outlook for manufacturing is unlimited. An idea of the business activity of this city and the amount of money expended annually in its greatest enterprises may be gleaned from the following figures: Expenditure for roads and bridges, $1,600,000; oil refineries, investment $2,000,000; crude oil handled, 2,000,000 barrels, oil payroll, $60,000; new buildings, besides small residences, $2,120,000; manufacturers and jobbers output, $50,000,000. Exp., Adams, Am., U. S. and W. F. & Co. Tel., Mackay, Postal and W. U. L. M. Barkley, postmaster.

Harriss Walter, genl store.
Poell J W, blksmith.

GAINESVILLE.

Population 8,350. The county seat of Cooke, "The Banner County of Texas." (Cooke is claimed to be the banner county by virtue of the fact she has won first prize at the Texas State Fair and the International Fair at San Antonio in every contest entered with her agricultural products and practically every one entered with her horses.) The chief products of the county consist of cotton, wheat, corn, hay, including alfalfa, and almost every known fruit and vegetable, all of which are grown successfully. The population of Cooke county is 27,500.

Gainesville is located on the northern border of Texas, 6 miles from Red river, on the G. C. & S. F. Ry. and the M. K. & T. Ry., 700 miles southwest from St. Louis. This prosperous city depends almost exclusively on the agricultural resources of the county in which it is located, and the surrounding counties from which a large trade is drawn by reason of the splendid stock of merchandise, said to be the most extensive carried by any town of like size in the Southwest. The industries of this city consist of a flour mill, daily capacity of 650 bbls. flour, 100 bbls. corn meal, 1000 sacks mixed feed; a brick factory, 40,000 daily capacity; a cotton compress, daily capacity being 1,850 bales, the season's receipts up to January 25th, 1913 were 81,329 bales; 4 cotton gins, daily capacity 160 bales; a cotton oil mill, 60 tons daily capacity; a machine shop, a bit and spur factory, a mattress factory, ice plant and bottling works, electric light and power plant, a boot and shoe factory, two monumental plants, a wagon end gate factory, a cotton stalk cutter factory and a rope factory. Gainesville is also a di-

vision point for the G. C. & S. F. Ry., their division shops being located here.

Gainesville has three civic and commercial bodies, to which the splendid conditions of present day Gainesville are credited. They are the Chamber of Commerce, conducting an educational campaign in agricultural lines among the farmers as well as civic improvement and publicity, the Retail Merchants' Association, which is conducted for the mutual benefit of the merchants and business men, and the XLI Club, composed of ladies of the city, who devote their time to civic improvement, charity and education. The Chamber of Commerce is very anxious to increase the industries of Gainesville, which offers numerous advantages for many classes. They are also anxious to increase the number of the much needed home builders in Cooke county.

Opportunity should be taken to make mention in this sketch of the splendid civic attractiveness and sanitary conditions of Gainesville. She clams to have more street lights per square inch than any other town in the Southwest. A $150,000 court house, a $50,000 city hall, an $80,000 federal building, splendid fire stations, a modern water plant owned by the city, one of the most beautiful parks in the state, and about 40 miles of macadamized streets. Precinct 1, in which Gainesville is located, is now spending $100,000 on macadamized roads extending out of the city. In a recent inspection

Cooke County Court House

of this city made by a noted authority on civic hygiene, who inspected 98 of the principal cities in Texas, Gainesville made a score of 95½ per cent. It was shown but one case of contagious disease had originated in the city in a year, that the artesian water obtained from a depth of 1,000 feet, which the city uses exclusively, is pure and plenty. The sewerage system is a splendid one and the drainage far above that of many cities much larger. It was determined that Gainesville was second to the cleanest town in the state only by one-half of one point. The city uses natural gas as fuel.

Gainesville has three banks, the First National, the Lindsay National and the First State, with a combined capital and surplus of $750,764, deposits $2,250,000. There are two daily and three weekly newspapers, the Daily Hesperian (morning), the Gainesville Daily Register (evening) and the Signal (weekly). Both dailies issue weekly editions. The combined circulation is about 6,000. This city has a splendd business college, a public school system that is of the highest type, there being four graded schools of the lower branches and the high school, also a Catholic school. Graduates of the high school are admitted to the state university without an examination. A splendid public library with a competent librarian is maintained by the civic bodies of the city. There are sixteen churches representing almost every religious denomination. A Presbyterian congregation is now constructing an edifice to cost $30,000. The principal shipments are cotton, cattle, hogs, hay, flour, fruit, vegetables, poultry and brick. Local and long distance telephone facilities. Tel., W. U. Exp., Am. and W., F. & Co. B. F. Mitchell, postmaster.

GAINESVILLE, THE COUNTY SEAT OF COOKE

"THE BANNER COUNTY OF TEXAS"

Population of Cooke County, 27,500
Population of Gainesville, = 8,350

Cooke County has 3,438 farms, consisting of 500,129 acres, average acres per farm 145.5, average improved acres 72.9. The total number operated by owners is 1683, operated by tenants, 1755. Ninety per cent of the farm land is tillable and productive. There is no county on Earth with a greater variety of soil, nor is there one that produces profitably a greater variety of crops. It, therefore, can be seen;

The Agricultural Display That Won the Name "COOKE THE BANNER COUNTY OF TEXAS"

Cooke, "The Banner County of Texas" Needs More Home Builders,

more land owners and fewer tenants. With an average yield, this year, of 32 BUSHELS WHEAT PER ACRE, ¾ bale (500 pounds) COTTON PER ACRE, at an average price of eleven cents per pound, a total valuation of farm products at $3,473,664.00 for 1912, we feel justified in inviting the Home Builder, whom we need most, to come and receive the glad hand of the BEST CITIZEN-SHIP ON EARTH.

Gale Gin Co.
HEINEMEIER ALFRED, General Store.

GALVESTON.

Population 45,000. Located on the East end of Galveston Island and lying about two miles from the mainland of the Texas Coast in the Gulf of Mexico, is the chief sea port of the State of Texas and of the United States Coast on the Gulf of Mexico.

It is the greatest cotton exporting port in the world and ranks second in the list of American ports in the total of its foreign commerce, being exceeded in this respect among American ports only by the port of New York, and outranking such old established ports as Boston, Philadelphia, Baltimore, New Orleans and San Francisco.

Its principal export is cotton, almost 3,000,000 bales having been exported during the year ending August 31, 1913.

The total value of its exports approximates $300,000,000.

Fifty-six lines of steamers ply regularly between Galveston and foreign ports, while five lines ply regularly between Galveston and other United States ports, principally New York.

It has two National banks, three State banks and four private banks. No report is available of the deposits in the private banks, but the deposits in State and National banks are about $10,000,000. The private banks are among the strongest in the country and command a very large share of the banking business of the city. The bank clearings for the calendar year 1913 exceed $1,000,000,000.

It has four daily newspapers and several weeklies.

Religious denominations represented by substantial edifices, are Methodist, Baptist, Presbyterian, Episcopalian, Lutheran, Hebrew, Catholic and Christian Science. The only Greek church in Texas is located in Galveston.

A sufficient number of substantial school buildings, including a magnificent high school, are operated by the city. In addition to the regular studies, manual training and domestic science are regularly taught. Graduates from the High School are admitted by their diploma to the University of Texas and other colleges of merit. In addition to this, the Medical Department of the State University is located here. there are a number of academies parochial schools, private institutions and business colleges.

The water supply is artesian. It is obtained at a point about eighteen miles distant on the mainland and brought to Galveston through pipes; is almost absolutely pure.

The fire department, including fire boats for water front protection, is ample and Galveston enjoys the unique distinction of having the lowest fire rate of any city in the State of Texas.

The climate of Galveston is exceptionally even. The Gulf stream flowing by the city preserves an even temperature the year round. While located further south in the United States than any city of its size, the summer temperature is remarkably low, the average maximum for the months of July and August for the past ten years being a little in excess of 88 degrees, while frost in the winter is a rarity.

The salt atmosphere eradicates all malarial influences; and on account of the low altitude, Galveston is a mecca for those suffering from nervous troubles or the influences of catarrh or hay fever.

Ample hotel accommodation of various classes are found in the city, notable among them being the Hotel Galvez, built by public subscription by the people of Galveston and located on the Sea Wall Boulevard on the Gulf of Mexico.

Several trunk lines of railroad have their deep water terminus on Galveston Island. These roads operate a mileage in excess of 50,000 miles through the territory west of Chicago to the Pacific ocean.

The harbor terminals are extensive, there being a dock frontage of more than five miles capable of berthing more than 100 large ocean-going steamships at one time. The value of these terminals exceeds $20,000,000. The Federal Government has already expended more than $15,000,000 on harbor improvements and there is available at this time a deep water channel from the Gulf of Mexico to the Docks at Galveston having a minimum depth of 30 feet all the way.

The city does a very large jobbing business to the interior; has the advantage of inbound water rates by coastwise steamers on manufactured articles from the Eastern States, and has the further advantage of cheap distributing rates to the interior of the State by means of an inland waterway for light draft vessels recently constructed by the United States Government and connecting with all rivers emptying into the Gulf of Mexico.

Further improvements by the government to the extent of $20,000,000 are now contemplated.

Custom houses, bonded ware houses, appraisers stores, immigration buildings and quarantine stations are maintained by the Federal Government, as well as Federal courts and officers.

The Island is connected to the mainland by a concrete causeway about two miles in length, carrying tracks for both steam and electric railways, and a roadway for vehicles and foot passengers. The cost of this structure exceeded $2,000,000.

The city was visited in September 1900 by an atmospheric disturbance that caused a large loss of life and property.

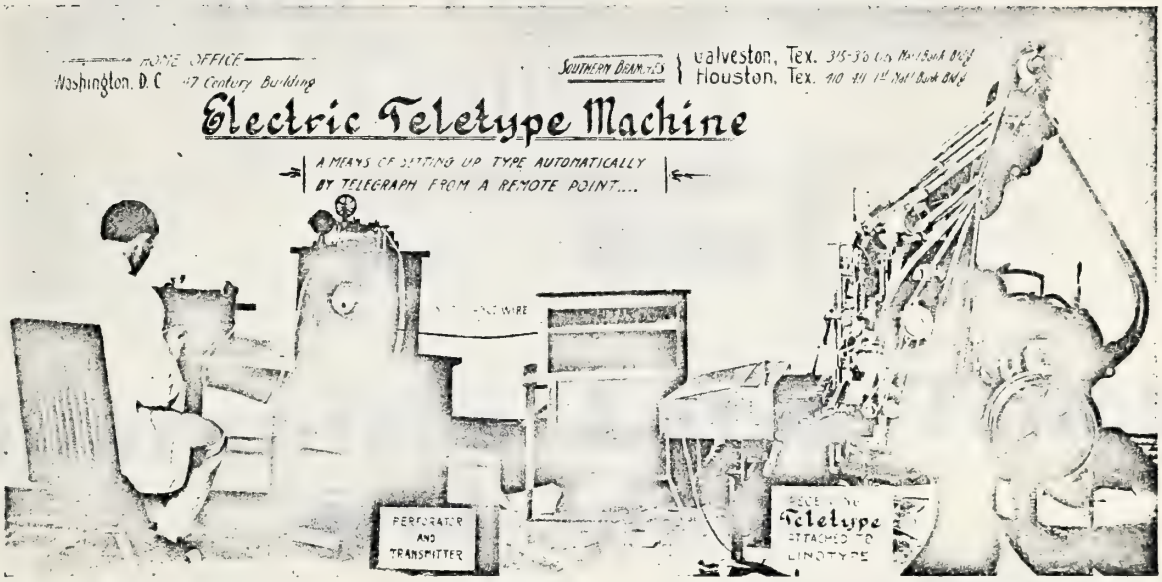
GALVESTON, - - TEXAS

National Teletype Company



An Absolute Necessity in Every Daily Newspaper Office

The Greatest Invention of the Twentieth Century

This invention offers you the greatest investment opportunity of the present age.

This is a new invention for the transmission of telegraphic news dispatches; fully perfected, practically demonstrated, patented and protected in every civilized country on the globe.

The Electric Teletype embodies an automatic control of the typesetting machines whereby news dispatches may be instantly transmitted from any given point simultaneously to every newspaper office in the world where telegraphic news is handled, and set in type ready for printing.

The message is merely written by the reporter in the sending office on an electrical typewriter connected by Associated Press wires with the Mergenthaler typesetting machines in the composing rooms of every newspaper on the circuit, and these machines automatically set the story in type form ready for printing as fast as it is written on the electric typewriter in the originating office.

CHARTER ISSUED BY SPECIAL ACT OF CONGRESS
UNDER THE LAWS OF THE DISTRICT OF COLUMBIA.

THE RICE HOUSTON, TEXAS
EUROPEAN PLAN :: :: :: $1.50 AND UP
HOMER D. MATTHEWS, Manager

Since that time a concrete sea wall 17 feet high and five miles in length has been built along the Gulf side of the city. Back of this sea wall was deposited almost 20,000,000 cubic yards of sand filling raising the grade of the city from the old level to that of the sea wall.

Every house and structure of every kind in the filled area was raised. A canal was dug through the city through which ocean going vessels passed with cargoes of this sand filling. Subsequently, this canal was refilled. All the street paving was relayed, sidewalks rebuilt, curbs replaced, water mains and sewers renewed and vegetation replanted. More than six years were consumed in this work the cost of which was in excess of $4,000,000 to the municipality and many millions more to the individuals.

At this time Galveston is enjoying an unprecedented era of prosperity. Residence houses are hard to get and business houses are practically unobtainable. Many new firms are coming in and vacant property is being rapidly acquired for construction purposes.

The principal lines of business in Galveston are cotton compresses, of which several are among the largest in the world, grain elevators of enormous capacity; cotton seed cake mills and cotton seed cake sacking plants, rice mills, flour mills, marine ways, ship yard, machine shops, cotton concentration plants, cigar manufacturing, broom factories and fish and oyster plants.

The surf bathing, fishing and hunting are exceptionally good and attract many thousands of visitors every year to the city.

The Rosenberg Library, the gift of the late Henry Rosenberg, represents an outlay of $240,000 and has an endowment of $600,000. It is a lending and reference library of 50,000 volumes, and with its popular free lecture department, performs very important educational services to the citizens. There are large and completely equipped hospitals.

GARRISON.

Population 1,000. In Nacogdoches county, 19 miles from Nacogdoches, the county seat. Situated on the H. E. & W. T. R. R., 158 miles from Houston and 72 miles southwest of Shreveport, La. This thriving town is finely situated, the surrounding country being well timbered and the soil rich and fertile. The principal industries are a large saw mill, planing mill, cotton gin and a brick-making plant, capable of turning out 50,000 bricks daily. Cotton, corn, sugar cane, peanuts and fruit of all kinds grow in abundance. Here the well known mineral springs, "Weatherly Wells," are annually visited by numerous people from all parts of the country and great benefits are received from the waters which are a specific for stomach and kidney troubles. Large quantities of this water is being shipped daily to various points. The town is growing rapdly and there is excellent hotel accommodation. Has 2 churches, Baptist and First Methodist, a bank and a newspaper, the Garrison Weekly News. The altitude of 3871 feet makes the town heathy. Telephone connection. Exp., W., F. & Co. Tel., W. U. John G. Ross, postmaster.

GONZALES.

Population 4,500. County seat of Gonzales county, an incorporated city on the banks of the beautiful Guadalupe river and on the Gonzales branch of the S. P. and the Lockhart branch of the S. A. & A. P. Rys. Gonzales marks the place where occurred many of the battles in the early struggles for Texan independence from Mexico. A splendid monument has been erected by the citizens of Gonzales, standing in the center of a beautiful plaza in the heart of the city, commemorative of the brave and heroic deeds of her soldiers in their struggles for liberty. The State of Texas has recently purchased a tract of land just outside the city limits to be used as a park in historic memory of the battles for freedom that were fought here. Gonzales has 3 banks, 1 daily newspaper, the Inquirer, and 2 weeklies, the Inquirer and the Reform. Has cotton oil mill and compress, several large cotton gins, brick manufacturing plant, 3 wholesale grocery houses, electric light and ice plant, also water power plant. Gonzales has an abundance of power at small cost to supply a number of additional factories and manufacturing plants. The principal export shipments are cotton, livestock, produce and dairy products. Tel., W. U., Exp., W. F. & Co. Telephone connection. Daniel U. Ramsay, postmaster.

ANALYSIS JUNE 1901, BY PROF. H. H. HARRINGTON:

Sulphate of Calcium	37.3	grains to gallon
Bicarbonate of Calcium	31.13	grains to gallon
Calcium Chloride	190.2	grains to gallon
Magnesium Chloride	40.4	grains to gallon
Sodium Chloride	133.7	grains to gallon
Sodium Bicarbonate	78.7	grains to gallon
Total Mineral	511.4	grains to gallon

It has proven to be the best remedy for such disorders as Stomach and Liver Trouble, Rheumatism, Lumbago, Female Ailments, Heart, Kidney and Bladder Troubles, Impurities of the blood, Running Sores, Ulcers, Eczema, all kinds of Skin Diseases and a Great Restorer of HUMAN VITALITY.

A Trial of this water will be given to anyone wishing to try its curing powers.

HEMPSTEAD.

Population 2,500, the county seat of Waller county, is located at the junction of the Austin branch and main line of the H. & T. C. Ry., 51 miles northwest of Houston. The city is rapidly becoming famous as the watermelon center of the United States, approximately 1000 car loads are shipped annually from this point to northern markets. The melons here grown are especially fine flavored. Truck farming, berries, potatoes and small fruits do exceptionally well, all coming in season for the early market, corn and cotton are the staple crops; also some dairying and live stock raising are successfully carried on. Hempstead has Methodist, Baptist, Presbyterian, Episcopal, Catholic and Christian churches, good public schools, 2 banks, a weekly newspaper, The News, 2 cotton gins, cotton seed oil mill and a full complement of retail stores. Tel., W. U. Exp., W., F. & Co. Telephone connection. Terrell O. Taylor, postmaster.

Henze Leopold Mrs, genl store.

HEREFORD.

Population 2,000. Elevation 3,810 feet. County seat of Deaf Smith county, located on the main line of the A. T. & S. F. Ry., 47 miles southwest of Amarillo. Hereford is the center of the now famous irrigated section. For miles in every direction extend vast acres in an unbroken plain, with a gradual slope to the southeast, as if they were especially intended by nature to be irrigated, beneath this area lies an immense bed of water producing sand, at an average depth of 50 feet. The thickness of this sand bed has not been determined. The deepest hole

drilled, 263 feet, was finished in water bearing sand. The water supply is apparently inexhaustible and is nature's purest, several wells are pumping daily from 1000 to 2000 gallons per minute without diminishing the supply. One well can easily irrigate 160 acres.

Nature has done a wonderful thing for this country, given a soil as fertil as the Nile, with vast fields as level as a table, and a climate that is ideal for plant growth, yet on the surface the one essential is lacking—moisture—but just beneath this surface nature has placed a vast inexhaustable sea of pure crystal water, so that man using his ingenuity may reach down and bring forth this natures gift and cause these semi-arid plains to bloom as a garden. The soil and climate are well adapted to the growth of wheat, oats, rye, barley, alfalfa, kaffir, maize and other forage crops, melons, fruits, celery and intensified farming.

Hereford has good schools, Baptist, Catholic, Christian, Methodist and Presbyterian churches, 3 banks, a weekly newspaper, The Brand, $125,000 court house, paved streets, electric lights, water works and sewer system, substantial buildings and a full line of up-to-date retail stores. Tel., W. U. Exp., W., F. & Co. Telephone connection. Clarence Smith, postmaster.

HILLSBORO.

Population 8,500. An incorporated city and the capital and metropolis of Hill county, is located in the midst of the black land district. Three railroads and an electric line enter the city, viz., M., K. & T. Ry. of Texas, T. & B. V. Ry., St. L. S. W. Ry. and Dallas-Waco Interurban. It is 35 miles north of Waco, 55 miles south of Fort Worth, and 65 miles southeast of Dallas. Among the more prominent industries are 5 cotton gins, cotton mill, oil mill, 2 ice factories, planing mill, and a modern steam laundry. There is an electric light plant and municipal water works system. This city is the home of the Texas Novelty Advertising Co., which was established here in 1898, and has grown to be the largest house of its kind in the southwest. Its salesmen cover the south and west from California to Alabama, and as far north as Kansas and Missouri. There are six banking institutions here, 4 incorporated banks, a private bank and a trust company. Three ably-edited and progressive newspapers, the Daily Mirror, the Hillsboro Mirror (weekly), and the Hillsboro Dispatch (weekly), are published. The Hillsboro Mirror (weekly) was established in 1881, and the daily in 1895. They give employment to over 30 people. There are 8 public schools and a private school, the Culberson Select School. There are 2 Methodist, 2 Baptist, 2 Presbyterian, an Episcopal, a Catholic and 2 Christian churches. The principal shipments are cotton, grain and live stock. Tel., W. U. Exp., W. F. & Co. and Am. Telephone connection. John J Cypert, postmaster.

HOUSTON.

The City of Houston is one of the first products of the new Republic of Texas. Founded by the Allen family and General Sam Houston after the defeat of the Mexicans at San Jacinto, April 21, 1836, and named in honor of the illustrious Texan who won Texas independence, the new town was founded to be the chief city in the new republic and today it maintains the same position as the chief city of the State of Texas, with a population of 130,000 or more persons.

When Mexico was forced to relinquish claims to Texas in 1836 the victorious Texans threw off the mantle of warfare to face a much more stupendous task—that of the governing of a great undeveloped empire, twice the size of Japan and 825 miles in length from north to south and 740 miles wide from east to west.

Establishment of the chief city or capital was the first task and it was decided to place it at a point easy of access by water, which was then the chief method of transportation, with the exception of overland, yet far enough inland from the coast to be safe from tropical and Gulf storms.

That point was determined at the head waters of the Buffalo Bayou, fifty miles inland. It was proposed to found the town on land owned by the Harris family, but a disagreement with the Allen family on land matters forced the Allens to desert the Harrisburg town project and come three miles further up the Bayou, where they founded Houston. Today the town of Harrisburg is but little larger, if any, than when founded, and now is a suburb of the City of Houston.

So Houston was founded. The wisdom of the forefathers in laying out the city on a navigable stream has proved the greatest factor in the upbuilding of Houston. Long since the old name of Buffalo Bayou has given away to the more distinctive name of "Houston Ship Channel," and the old bayou, still an arm of the sea, has been deepened to a depth of 25 feet and widened to 200 feet at the bottom, and the ships of ocean commerce are entering the land-locked port of Houston over its placid waters.

The Ship Channel is Houston's greatest commercial asset. It has given Houston the water rate, while traffic over its waters amount to over $55,000,000 annually. Houston is a port of entry and a custom house is maintained. The improvement of the channel to a depth of 25 feet has just been made under an appropriation of $2,500,000, the work being directed by United States engineers. The City of Houston by agreement with the government forever guarantees to maintain free wharf facilities, so no commerce over the wharves at Houston will be subject to tax.

Houston is the railroad center of the southwest, 17 railroads entering the city and making their terminus. Over 100 passenger trains operate in and out of Houston daily. Houston is the largest railroad center and deep water port combined in the south. Houston is general headquarters for the Sunset-Central Lines (Southern Pacific Lines in Louisiana and Texas), the International and Great Northern Railway, the Texas-Frisco Lines and the Trinity and Brazos Valley Railroad.

The only general office building of Southern Pacific Lines is at Houston, the nine-story half-million dollar general offices of the Sunset-Cental Lines. A modern half-million dollar hospital is maintained in Houston by the Southern Pacific.

The shops of the Sunset-Central Lines and of the Houston and Texas Central Railroad are in Houston. Nearly 2,500 men are employed in the great shops of the Texas and New Orleans Railroad and over 500 men in the shops of the Houston and Texas Central.

Houston is the financial center of the southwest, with more banking capital, greater clearings and greater deposits than any city in Texas. Deposits subject to check average $45,000,000 while bank clearings are second only to New Orleans of any southern city. Several costly and modern buildings house Houston financial institutions.

Houston is the largest inland port cotton market in the world, handling nearly 3,000,000 bales annually, or the bulk of the crop of Texas and Oklahoma. Houston has greater concentration facilities of any city in Texas and a compressing capacity of 3,000,000 bales per year. The greatest item of commerce over the Ship Channel is cotton, and the channel alone saves over $6,000,000 annually to the cotton producers of Texas as it reduces for a haul of 50 miles the railroad rate of 21 cents per hundred pounds to six cents.

Houston is the oil center of Texas, 23 oil corporations with a combined capital of $70,000,000 being domiciled in Houston. One corporation, The Texas Company, is capitalized at $50,000,000.

Houston is the lumber center of the southwest, 49 lumber corporations with a combined capital of $40,000,000, being domiciled in Houston. Annual business amounts to $37,000,000. The cut is confined almost entirely to long leaf yellow pine, great forests of which are located within a few miles of Houston.

Houston is the industrial and manufacturing center of Texas with 347 manufacturing institutions, turning out 282 different articles and employing 10,000 factory workers. The annual industrial payroll of Houston is in excess of $10,000,000.

Houston is the sugar and rice center of Texas, being in the center of the producing region for both commodities

Houston has 40 tall buildings of six stories and over, ranging up to 18 stories, which is more skyscrapers of six stories and over than possessed by any other city of equal population in the world.

Houston has greater modern hotel facilities than any city in the south, having 200 more first class hotel rooms than New Orleans, the nearest competitor. The Rice Hotel of 18 stories, containing 600 guest rooms and costing $3,500,000, is the largest and costliest hotel in the south.

The largest and most modern convention hall in the south is in Houston—the great Municipal Auditorium, recently completed at a cost of $400,000. It seats 7,000 persons, and 10,000 can be accommodated within seeing and hearing distance of the stage. It was built by the city and paid for out of the general revenues of the city.

Municipal government in Houston is by commission form. Taxable valuations are $110,000,000, the greatest of any city in Texas and the taxable valuation of Harris county, of which Houston is the county seat, is $128,600,000, the greatest of any county in Texas.

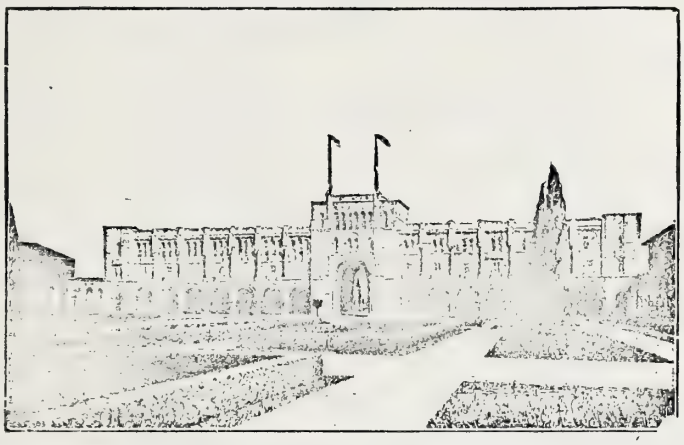
Houston is an all the year 'round city. A pleasant winter resort, warmed by Gulf trades, and cool in summer, fanned by Gulf winds. It is a hospitable city where the true southern hospitality is exemplified. It possesses a historical interest in that fifteen miles below the city on the Houston Ship Channel, the decisive battle of San Jacinto was fought April 21, 1836, which won independence for Texas from Mexico. This sacred spot is now reserved by the state as a public park and is known as San Jacinto Battlefield. It is reached by boat or automobile, taking the Harrisburg or Telephone roads.

Houston is one of the wonderful new cities of the south. It set the pace for skyscraper building by erecting twenty buildings of from seven to eighteen stories within a period of two years. The investment for this building activity aggregated $18,000,000 for the period. This skyscraper period began in 1910 and will continue until Houston reaches the ideal she has set out to reach—that of the metropolis of the south.

There are many places of interest in Houston and in the county. Harris county has over 300 miles of paved boulevards, all converging at Houston.

Points of interest around Houston are the battlefield, the $10,000,000 Rice Institute, south on Main street; the deep sea fishing and bathing within an hour's ride of Houston and big game hunting within two hours' ride.

Houston as a great educational center is famed for its great Rice Institute, a co-educational institution for the advancement of letters, science and art. Tuition is free. The institute is a gift to Houston by the late William Marsh Rice who left an endowment fund for the purpose, which now totals over $10,000,000, making Rice Institute the seventh richest institution of learning in the country. Thirty-three buildings are proposed in the academic plan, four of which are completed and two others under construction, the new buildings going up as fast as needed. The institute opened in the fall of 1912. The institute estate covers 100 acres and the grounds, quadrangles and courts are magnificently beautified.



Houston is well equipped for schools, having 15 public city school buildings for white pupils and 10 public schools for colored. In the suburbs there are 21 public schools for white pupils. There are 46 select and private schools, not including Rice Institute. Some of the finest and newest public buildings in Houston are devoted to school purposes notably the new Rusk school costing $175,000; new Dow school, costing $115,000; Crockett and Longfellow schools, both new and costing each $75,000; new North Side Junior High school costing $130,000 and the fine South Side Junior High school now under construction. This building will cost $250,000, located on a site costing $225,000. It will be completed for the opening of the school term in the fall of 1914.

Exp., Am., U. S. and W. F. & C., Tel., Mackay, Postal and W. U. T. W. House, postmaster.

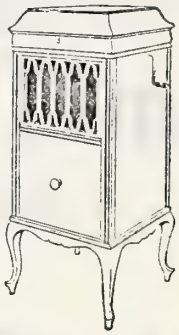
HOMER D. MATTHEWS, Manager

Mr. Dealer,

We're the jobbers on the job!

We want you to know it's going to be money in your pocket to be first on the ground with

The Edison Disc and Cylinder Phonographs



These latest marvels from the great inventor are making good with lightning speed wherever shown. We can supply dealers "FROM THE RIO GRANDE TO THE MISSISSIPPI."

We carry a complete stock of Supplies, including Records in Twenty-nine different languages.

Our policy has always been to give the dealer the considerate co-operation which, combined with never-ceasing aggression, brings confidence and activity to the Edison line. Get in touch with us at once about *your* territory.

Houston Phonograph Co., 903 Main Street, Houston

Cash in on Mr. Edison's latest wonder
The Edison Disc Phonograph

We are right here to help you tell the people of Texas and Oklahoma what they have wanted to know—that Mr. Edison, after years of experiment, has now put his Disc Phonograph on the market. He invented the first one—years ago—but he wasn't ready to launch it until it was perfect. Now it is. Now the people can have it.

MOERS SEED COMPANY

HOUSTON, TEXAS

Dealers in a line of Seeds specially adapted to the South and well known as the

Seeds That Grow

because of the reliability of their germination.

By a painstaking system of eliminating from their stock at frequent intervals, all old seeds or those showing the least evidence of a lack of proper germinating qualities, the stock is kept constantly fresh and the seeds put out have become standardized in the minds of the farmers and gardeners using them, hence the label: "SEEDS THAT GROW, from Moers Seed Company" is an INSURANCE POLICY as to germination.

J. S. MOERS

Mr. J. S. Moers, proprietor of the Moers Seed Co., is a comparatively young man, a native of Harris County, Texas, and of German descent. He exemplifies in business the sturdy, conservative methods of the German character and has imbibed early in life the enterprising and progressive spirit characteristic of his home city, Houston. Watch this house climb into the "sky-scraper" class within a few brief years.

We also carry a complete line of

Incubators and Poultry Supplies.

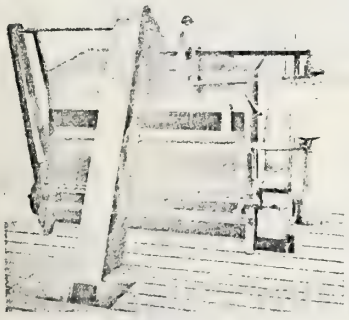
E. S. Dixon & Co. WHOLESALE GRAIN, HAY and FEED

We have unexcelled facilities for handling and shipping straight and mixed carlots, and we realize it is the price and quality that gets the business. Our weekly quotations would interest you. Write us, and compare them with others. We manufacture our own brands of Mixed Feed, Chicken Feed, Corn Meal, Corn Chops, Etc.



Dixon-Werner Molasses Mixed Feed Machine

The Molasses Mixed Feed Problem Solved

MANUFACTURED BY

WERNER-MITCHELL MACHINE WORKS

FOR SALE BY

E. S. DIXON & CO., HOUSTON

a machine that mixes a batch of 500 pounds of molasses feed of such variety as wheat bran, corn bran, rice bran, alfalfa meal or cut hay or straw, cotton seed hulls, corn chops, ground oats or oat clipping and molasses at the rate of four tons per hour; one man can operate and mix successfully, but requires the services of four men to operate at the full capacity, covers floor space about 12 x 12 feet and requires 10 to 12 H. P.

Complete Plant Within Itself

The logical market for molasses mixed feed is your home town and vicinity; therefore, it would not be practical to spend several thousand dollars to equip a special plant for the purpose of manufacturing this commodity and depend on the whole country for a market. The Dixon-Werner Feed Mixer is a complete plant within itself, does not require the outlay of much money and will pay for itself many times within one year, as you would be able to get a margin of $4.00 to $6.00 per ton more for manufacturing and selling your own brand of mixed feed than selling staples such as corn, oats, wheat bran, etc. Write us for further particulars, prices, terms, etc.

McEvoy Wireless Well Strainers

For OIL, GAS AND WATER WELLS

are just what the name implies; they have **BRASS SLOTTED STRAINER PLUGS** inserted and secured within the walls of the pipe, as shown, which makes them safe. You can **ROTATE** or **DRIVE** them same as pipe. The plugs shown are actual size and are numbered according to mesh. The white lines are actual widths of openings. This construction makes the "McEvoy Wireless," the **SAFEST** and **BEST** Screen made, and in a class by itself. Used in all oil fields and for **CITY WATER** and **IRRIGATION WELLS** everywhere.

The Sign over your door

IT is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

The **City Directory** is where many people look when they want to find you. You should make it easy for them to find you by putting in the directory such information as a buyer wants to know. Index your business under all classifications where a customer might look for you.

To be properly registered costs less than to be left out.

Send for the City Directory Advertising Man and let him explain this to you in detail.

You Probably Did Not Know

That the Best Stock Tonic in the Whole Wide World is a Texas Product. If You Did You Would be Handling It. It Is

JIM BOURLAND'S MEDICATED SALT BLOCK

It is the Only Air-cured Block, or Brick, on the Market (the "Just as Good" Kind are Burned Like a Firebrick and that Weakens the Medicinal Virtues). Mine is the Only One That Does Not Crumble When it Gets Damp.

Weighs Three Pounds Net—Sells for a Quarter. "Guarantee to Please" is Printed on the Carton and over 30,000 Sold Before I Received a Request for Refund.

Salt, 62½%; Drugs, 37½%.

Contains
Salt Sulphur
Salt Petre
Copper and
Nux Vomica

You Buy It—They Lick It—They Doctor Themselves
MADE IN HOUSTON—LICKED EVERYWHERE
MANUFACTURED BY
JIM BOURLAND, Houston, Texas

Just lay it in the Feedbox. They follow the dictates of nature as to when and how much to take.

(Trade Mark)
If you are the Live Wire of your city I want to hear from you. Competitors are welcome to the dead ones.

THE PURDY HOME

For the Cure of Drug Addiction and Alcoholism

Only uncomplicated cases of drug and liquor addiction are accepted. No violent or mental cases.

This is not a hospital, sanitarium, health resort, or "cure," simply a home, whose hospitality is extended to drug addicts and alcoholics who sincerely want to be free but are in the attitude of the man who, having a bear by the tail, desired someone to help him "let go." To "let go" unaided being impossible, the logic of any treatment is to make it possible and our province is to make it as easy as possible. It can be made so comparatively easy that the sincere patient, placed on honor and allowed full liberty of movement, finds no excuse to go wrong.

This place is unique among institutions of the kind in that it does not employ nurses or attendants, restraint or espionage, barred doors or windows, or any kind of one-sided, non co-operative effort. Conception of the true characteristics of drug and liquor addiction and safe and sane methods of treatment, correct on theory and proven in practice, individualize The Purdy Home. The patient is made the chief factor in his own recovery, as he must be, and all depends upon his good faith. Here he gives up no liberty but acquires a new freedom. In a natural way, accompanied by no shock or depression, the dominance of drug or liquor is overcome and normal health restored.

For detailed information address,

DR. EDWARD PURDY, 1516 Ovid Street, HOUSTON, TEXAS

RICHARD RAINES COMPANY

Makers of the Raines Welding Plant, The Raines Pressure Generator

Mr. Raines has used practically every welding plant offered on the market and found them so unsatisfactory that in order to do efficient work he had to build his own plant and patent improvements that are of first importance. Our Generators are built without clock work. No float valve, no inside gasometer, just two brass valves working as one, controls gas pressure absolutely automatically.

TEXAS GRADING COMPANY, INCORPORATED

General Road Contractors

Carter Building. **HOUSTON, TEXAS**

We have been in the road building business for over thirty years, and have made this our life study. We are thoroughly equipped for Street Paving and Macadamized Roads, and we operate anywhere in Texas, Louisiana and Mississippi.

We own and operate our own rock quarries and crushing plants.
Estimates on work cheerfully furnished. Let us figure with you on your work, and show you over some of the roads we have constructed.

TEXAS GRADING COMPANY, INC., Good Road Builders, HOUSTON, TEXAS

T. H. PACE, General Manager. L. W. CLARK, Secy. and Treas.

THE TEXAS LAND & COLONY COMPANY

We BUY and SELL Real Estate, Exchange City Property for Farms, Locate Colonies and New Town Sites.
We Collect Rents and do a General Real Estate Business.

THE CUSTOM OF GETTING THE OWNER TO MAKE A LOW PRICE, AND THEN ADDING FROM $100.00 TO $1,000.00 TO THE PRICE, NEVER APPEALED TO US; and we are sure the stranger coming to Texas prefers to buy direct from the owner, who is not bound up to let the salesman make the price. We sell real estate just as a salesman would sell a car load of merchandise. The price is fixed as low as the owner can afford, but if he chooses to take less, no contract with us would prevent it. Experience has convinced us of the success of our method. We have received hundreds of letters saying, "Send us a buyer, and if he offers anything like a living price, we will sell and pay you small commission." We operate all over Texas and keep an information Bureau for Home Seekers. Send for our catalogue of splendid opportunities.

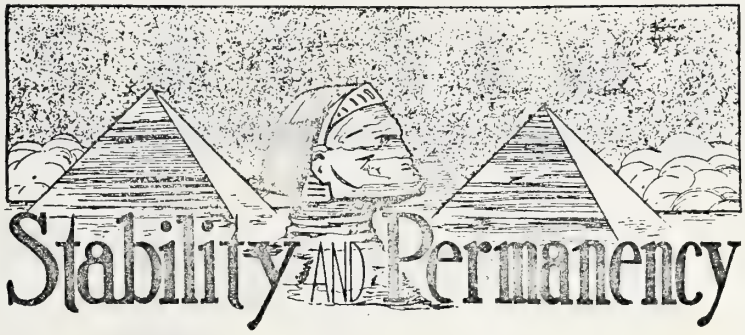
The National Real Estate Journal



Do you realize that a City Directory advertisement is a testimonial to the permanency, the stability, of the advertiser?

That's the sort of concern all of us want to patronize, because we know when they sell us merchandise they are behind it in every way, today, tomorrow, and for the years to come.

"Fly-by-night," "fire-sale" and other temporary or *"get-rich-quick"* concerns rarely appear in the City Directory.

And it is a noteworthy fact that the concerns which advertise one year in the city directory are there again next year. 90% of directory advertising is renewed.

Directory advertising, is profitable. In connection with the classified business headings it is doubly effective.

May we explain how and why it will pay you?

The Publishers of this Directory

CAUTION

Deal only with well-known publishers when giving orders for Directory advertising.

READ ALL ORDERS CAREFULLY BEFORE SIGNING, and do not sign duplicate "vouchers," as they are invariably used fraudulently.

PAY NO MONEY IN ADVANCE. All well-known publishers instruct their men to collect nothing prior to publication, and any attempt to collect needs immediate investigation.

Detroit Directory Library—Every Directory Office is a Branch

HOW DIRECTORY LIBRARIES ARE USED

He Wanted to Buy a Home

"Who sells ready-cut houses?" said a man to us the other day. "There is nobody listed under that heading in the Detroit City Directory, but I know there is some concern out in the State which sells them."

Reference to the Michigan State Gazetteer (State Business Directory) soon told him that the concern he wished was the North American Construction Company, of Bay City, Mich. "I will write and order what I want at once." was his parting remark.

Where one instance of this sort comes to our attention, the same things are happening over and over again wherever a City Directory is to be found.

If you will trace back new customers to find out how they found you, City Directory classified lists will receive their share of the credit.

A $50,000.00 Order

A traveling man from St. Louis called on a wholesale dry goods house in St. Paul, to sell salvage goods. They did not deal in that class of goods.

Later the firm dissolved. One partner decided to engage in that line of trade and wanted to buy a complete stock, amounting to about $50,000.00.

He called at our office and examined the St. Louis Directory to find the name of the house the agent represented. The classification "Salvage Goods" did not show it.

We, being more familiar with the classifications in a Directory, found it under "Bankrupt Stocks," much to the delight of the jobber, and a tremendous order was placed with the salvage house.

The classified section of the City Directory is the greatest buyers' guide on earth. Any one classification may secure the largest order and the best customer, any or every day in the year, and its omission may lose a large order at any time.

Every day, all over the country, thousands of people are consulting Polk's Directory Libraries. We offer you the free use of our directories for single reference.

Many Directories of various cities are bought by progressive concerns, who desire up-to-date mailing lists, classified by trades and otherwise.

Ask for a free copy of our "Directory of Directories," or for our "List of Mailing Lists."

KINGSVILLE.

Population 5,000. County seat of Kleberg county, on the St. L., B. & M. Ry., 119 miles north of Brownsville, 253 southwest of Houston and 39 southwest of Corpus Christi. The city is located in the center of the King ranch, which is without doubt the largest ranch in the United States owned by a single individual. The ranch was established by Captain Richard M. King for cattle raising and the vast acres of rich land shows his knowledge of the soil and climate as adapted to stock raising. The owners of the King ranch have now under construction a ranch house near Kingsville, costing $300,000. Kingsville is a prosperous growing city. The general shops of the St. L., B. & M. Ry. are located here and furnish employment to a large force. The city is lighted by electricity; has paved streets, water works and sewer system. Has churches of the leading denominations, good schools, 2 banks, a weekly newspaper, cotton gins, cotton oil mill, ice plant, steam laundry and a creamery. Is favorably situated for dairying, cattle raising, cotton, corn and truck farming. The county is still new and undeveloped, but is attracting much attention for actual settlers. Real estate values are reasonable but advancing. In the near future Kingsville will be the center of a well developed farming and dairying country. This, in connection with its railroad interests will make the city one of the most important and prosperous in all south Texas. Tel., W. U.; Exp., W. F. & Co. Matthew J. Kivlin, postmaster.

KRANTZ SALVAGE AND TRADING CO.

If you want to retire from business, consult us.

If you want to buy bargains, come and see us.

We will buy your merchandise for spot cash or handle same on commission.

We have merchandise of all kinds at all times, at bargain prices.

711 Preston Ave.

HOUSTON

Mr. Buyer—Take Notice

WHY PAY $75 to $100 per acre for land that grows 1-3 to 1-2 bale of cotton when we are offering better land from $10 to $40 per acre ?

Come at Once and Let Us Show You These Lands

Where you can grow anything that grows in Texas. A land of hospitality and courtesy, where neighbors and friends mingle as one family. We need more good people to help us develop the country. We have room for all. Come where you have regular seasons, an average crop every year. No such thing as failure. Plenty of water and the very best. Plenty of wood and coal. Raise everything you and your stock eat at a minimum cost.

DO NOT LEAVE TEXAS WITHOUT SEEING KOSSE AND SURROUNDING COUNTRY

Laredo Seminary

Laredo, Texas

A HIGH-GRADE SCHOOL FOR BOYS AND GIRLS

Founded in 1882, and maintained by the Woman's Missionary Council of the Methodist Episcopal Church, South. The grounds comprise sixteen acres in the eastern part of the city. Shade trees in abundance, tropical plants in profusion, elegant drives and promenades—an ideal school home for boys and girls. There are seven good substantial buildings, and all well equipped for school work. The Seminary has a yearly attendance of more than three hundred students. The teaching force numbers about fifteen. These have been well prepared for their work, most of them being college and university graduates. Instruction is given in the ordinary academic branches, preparing students for any college or university in the country; in music, instrumental and vocal; in expression; in art, including penmanship, drawing, water colors, crayon, pastel, oil, and china decoration; and in all commercial subjects. Boys are under military discipline receiving ample instruction and careful drill at the hands of an army-trained young man. This young gentleman teacher lives with the boys, and directs all their sports.

School is in session nine months, opening in September, and closing the latter part of May. Rates are very reasonable. Students admitted at any time. Special attention to English for Mexican children—best advantages in this line to be found in Southwest Texas.

For full information and catalogue, address,

JAMES M. SKINNER, A. M. Ph. D., President.

LAREDO.

Population 18,000. This progressive city, the county seat of Webb county, is located on the Rio Grande river and on the I. & G. N., the T. M., the R. G. & E. P. and the N. R. of M. roads, 153 miles southeast of San Antonio. It is lighted by electricity, has water works, an efficient fire department, local and long distance telephone facilities, first-class hotels, a live Chamber of Commerce, 3 banks and all the appointments of an up-to-date business center. The press is represented by 2 daily newspapers, the Progress and the Times, as well as a number of weekly publications. There are churches of the Baptist, Catholic, Christian, Episcopal, Methodist and Presbyterian denominations; excellent public and parochial schools, and 2 convents. This is the seat of the well-known Laredo Seminary for Boys and Girls, an institution of learning that from year to year has exhibited a spirit of enterprise which has kept it in the forefront of scholastic merit and set the seal of success upon the labors of its founders. Its claim of superiority is founded upon the substantial results which it has accomplished in its history and on its present unequalled means and thoroughly accomplished corps of experienced teachers. In its line the Laredo Seminary is said to have quite a monopoly.

Among the more important industrial institutions are the 4 large brick works, the Laredo Roller Mills, 2 ice plants, foundry and machine shop, gas engine works, cigar factories, bottling works, flour mill, railroad shops and coal mines.

If you are looking for a location in almost any line of business you will find in Laredo chances, in many lines superior opportunities. You will find a magnificent climate, cheap fuel, electric power, low freight rates, and every opportunity desirable for manufacturing and a business community that will extend any possible favor. As a home city Laredo is not surpassed by any city in the State. Its people are thriving and saving. Schools, churches and amusement places are numerous. The leading secret and benevolent orders are represented. In a word life is worth living at Laredo. This city has the goods—all they ask is for you to come and see for yourself. Tel., W. U. and T. M.; Exp., Am., M. N. and W. F. & Co.

Unequalled as an Advertising Medium in its Territory

JOLLEY & TERRY COTTON SEED CO.

LOCKHART, TEXAS

EXCLUSIVE DEALERS IN THE FAMOUS

MEBANE IMPROVED TRIUMPH COTTON SEED

A Texas product with a history and a lint record unexcelled. Characteristics: low branching, therefore early fruiting, close jointed, therefore rapid fruiting; large bolls, therefore storm proof. THE GREATEST LINT TURN OUT OF ANY KNOWN VARIETY, making from 39 to 44 per cent under favorable soil and climatic conditions. The farmer will gain $5.50 to $7.50 per bale by growing THE FAMOUS MEBANE IMPROVED TRIUMPH COTTON.

CORRESPONDENCE SOLICITED.

A rural postoffice in Martin county, 26 miles north of Stanton, the county seat, and 17 miles south of Lamesa, the nearest banking and shipping point. Mail, tri-weekly.

CLAYTON N R, Grocer.

LUBBOCK.

Population 2,250. Elevation 3,246 ft. An incorporated city located on the A. T. & S. F. and South Plains & Crosbyton Rys., 123 miles south of Amarillo. It is the county seat and principal town in Lubbock county. Has Baptist, Methodist, Presbyterian and Christian churches, 3 good banks, a weekly newspaper, the Avalanche, good hotels, 1 wholesale grocery house, 2 cotton gins, electric light and ice plant and a number of up-to-date retail stores. Lubbock, like other plains counties, appears to have an inexhaustible supply of water at a depth of about 60 feet, and great interest is manifested in the possibilities of irrigation from wells. A number of test wells were put down in 1911 with most gratifying results, and the next few seasons will undoubtedly see many acres in apples, plums, pears, peaches, truck farms, as well as staple grain and forage crops, under successful irrigation. Large acreage is available for new settlers and homeseekers are invited. Tel., W. U., Exp., W F & Co. Telephone connections. Salmon P. Stubbs, postmaster.

MARSHALL.

Population 12,000. The judicial seat of Harrison county is located on the T. & P. and the M. & E. T. Rys., 74 miles south of Texarkana. Here you will find a city where manufacturing and all lines of business are extensive. It is a metropolitan city, with handsome public buildings, water works, electric light, beautiful homes and churches, a public school system, the peer of any in the state, lodges of the leading secret and benevolent orders, electric street railway, local and long distance telephone facilities, 4 banks, first-class hotels, perfect sanitary conditions and a healthful climate. The press is represented by the Messenger, issued daily and semi-weekly, The Sunday Sentinel, and a weekly publication, The Texas and Louisana Watchman (negro). Among the more important industries are saw mills, cotton gins, locomotive and car shops, car wheel works, grist mills, planing mills, cotton compress, cotton seed oil mill, mill supply works, foundry and pottery, pop corn, candy, ice, shingle and fertilizer factories. It is the receiving and distributing point for a rich fruit, cotton, truck growing and stock-raising section, with plenty of standing pine and oak. Tel., W. U. Exp., Am. and W., F. & Co.

MIAMI.

Population 1,000. A prosperous town on the A. T. & S. F. Ry., 76 miles east of Amarillo, in Roberts county, of which it is the judicial seat. Elevation 2,743 feet. Is the center of a fertile farming country, well adapted to cattle raising and crops of wheat, corn, kaffir corn and milo maize, oats, cane, hay and broom corn. In 1910 200,000 bushels of wheat were marketed at Miami; in 1911 300,000 bushels, and in 1912 400,000 bushels, which shows a steady increase of production of wheat in this section. About 300 car loads of cattle and 50 car loads of broom corn were marketed from this point in 1912. Wheat yields per acre about 25 bushels. Good land can be purchased at prices ranging from $5 to $35 per acre, but on a rising market. Miami has good water, good climate, and a progressive, industrious moral citizenship. Has Baptist, Methodist, Presbyterian and Christian churches, graded and high schools, 2 banks, 2 first class hotels, 4 grain elevators, a weekly newspaper, The Chief, a $45,000 court house under construction. Substantial business blocks and a number of excellent retail stores. Tel., W. U. Exp., W. F. & Co. Telephone connection. C. S. Seiber postmaster.

Texas Presbyterian College

MILFORD, TEXAS

AN IDEAL SCHOOL FOR YOUNG LADIES

This school in ten years' history has attained a development and reputation equal to schools of scores of years. Its location is ideal, healthful, beautiful, convenient, on the Dallas-Waco Interurban and M., K. & T. Railway. A faculty of twenty-two teachers, representing all departments of liberal culture, literature, music, art, needlework, domestic science, etc.

A Beautiful Pipe Organ.
One of the Most Scientific Voice Teachers in the South.
Five Piano Teachers From the Best Music Schools.
Edward Baxter Perry, Visiting Director.
Modern Languages Spoken at Tables in Dining Room.
Property Worth $200,000.
Deep Well With Splendid Water.
The Handsomest New Dormitory in Texas.

Its pupils are noted for their gentle, quiet, ladylike manners. A beautiful home life. A true, refined college spirit. One patron says: "A cultured, Christian home, where order, system, comfort and refinement reign supreme." If you want your daughter trained to be an ideal woman, send her to T. P. C. Send for illustrated catalogue. School opens September, 1914.

Here's what one user says about our STAR Firebrick:

"We put in your brick in our furnaces in 1910 and have done nothing to them since then. They are good for several seasons yet. You can rest assured that whenever we are in need of any firebrick, we will be sure to buy yours, as we consider them worth two or three times any other firebrick made."

NEW BRAUNFELS.

Population 3,565. The county seat of Comal county is a prosperous city on the I. & G. N. and M. K. & T. Rys., at the confluence of the Comal and Guadalupe rivers, 31 miles northeast of San Antonio and 50 miles southwest of Austin. It was founded in 1845 by Prince Solms Braunfels from whom it received its name and is situated in a thickly settled and prosperous agricultural district. It is strictly a German town and a beautiful city on account of its splendid location and delightful climate. The Comal river is only three miles in length and its source is powerful artesian springs, which flow 60,000 cubit feet per minute, clear as crystal and absolutely pure. This stream, well stocked with game fish and within the city, is one of the most beautiful natural parks in the world. Plenty of shade trees are found and splendid fishing, boating and bathing. The industries are 2 large roller mills, a cotton oil mill, ice plant and electric light plant all run by natural power, large lime plant, rock crushers, 2 tanneries, whip cord factories, horse collar factory, broom factory, brush factory, several cotton gins, etc. Diversified agriculture, stock raising and apiculture are profitably and extensively carried on. There are 2 banks with combined capital stock of $140,000, 2 weekly newspapers, the Herald (English) and the Zeitung (German), good public schools, an academy and 4 good hotels. The city has voted $45,000 bonds for the building of a new high school building, which is now under construction. There are Catholic, Lutheran, Methodist, Baptist and Christian Science churches. The city owns its own water works, supplying an abundance of pure water from the head of the Comal river, and has now under construction a large plant to supply the city with electric light and power. The principal shipments are grain, mill products, cotton seed products, farm produce, crushed rock, lime, fertilizer, live stock and hay. Tel., W. U. Exp., Am. and W., F. & Co. Local and long distance telephones. Otto Heilig, postmaster.

ORANGE.

Population 7,000. One of the livest cities in the entire south is located on the Sabine river and on the O. & N. W. and the T. & N. O. Rys., in Orange county of which it is the judicial seat, 105 miles east of Houston, 255 west of New Orleans, La., 20 from the Gulf of Mexico and by river 32 to the open sea. Its location on the Sabine river, where the Intercoastal Canal, east and west, intersects this stream is unique. It has a 26-foot deep-water channel to the open sea and ocean vessels will, within a short space of time, receive and unload cargoes at Orange. Has churches of the leading denominations, 3 schools with an average attendance of 1,500 pupils and one negro school with over 300 pupils. Has surface drainage, sewerage system, electric light, water works, fire department, 25 miles paved streets, local and long distance telephone facilities, 3 banks, first class hotels, one of the most active commercial organizations in the state, a daily newspaper, the Daily Leader, and a weekly, the Orange Leader. Among the leading industries are saw mills and planers, paper mill, bag manufactory, rice mill, box factory, ship yard, oil refinery, iron works and electric power plant. The total output of the saw mills of Orange exceeds 125,000,000 feet of mechantable lumber annually. Oil in paying quantity was recently found in Orange county and the field is being rapidly developed. The value of the rice crop of Orange county for 1913 approximated $800,000 in value. The principal shipments are lumber, rice paper, paper boxes, and box shooks. Tel., Postal and W. U., Exp., U. S. and W. F. & Co. John J. Ball, postmaster.

PALACIOS.

Population 2,000. On the G. H. & S. A. Ry., and on Tres Palacios Bay, a branch of Matagorda Bay, in Matagorda county, 32 miles southwest of Bay City, the county seat and, and 115 miles southwest of Houston. Its delightful location on the coast makes it a popular outing and camping resort. The Baptist Young People's Union convention of Texas meets here annually for ten days. A good roads system has recently been completed at a cost of $100,000. Good land can be secured near by at reasonable figures. The city has a cotton gin, ice plant, electric lights, water works, a fine bathing pavilion, a boat factory, machine shops, a fig preserving plant, 2 wholesale fish and oyster shippers, first-class hotels, fine mercantile establishments, 2 banks, and a weekly newspaper, The Beacon. Palacios Baptist Academy, a co-educational institution, is located here. Has public schools with as high rating as any in the State, churches of the Baptist, Methodist, Presbyterian, Lutheran and Christian denominations. The principal shipments are cotton, corn, fig preserves, fish oysters and live stock. Tel., W. U. Exp., W. F. & Co. Telephone connection. W. H. Clement, postmaster.

PARIS.

Population 15,000. The judicial seat of Lamar county, is located on the T. & P., the P. & Mt P., the T. & M., the G. C. & S. F. and the F. R. Rys., 100 miles northeast of Dallas and 91 west of Texarkana. It dates its settlement from 1845 and is now one of the most prosperous cities of North Texas. It is paved and sewered according to the modern demands of a place of its size. Its system of schools rank well with those of cities in a state famous for its educational facilities. Churches of the Baptist, Catholic, Christian, Congregational, Episcopal, Methodist and Presbyterian denominations minister to the religious life of the community. Its 5 banks, with total deposits of $4,500,000, are well equipped to meet the business needs of the city and are contributing very largely to the things which make a city grow in influence and population. Paris has in its retail stores something in which citizens take much pride and comfort and outsiders come a long distance to patronize. Paris merchants are progressive. They are progressive in buying in the wholesale market at good advantages and giving the people the benefit. They are progressive in keeping up in the front rank all that is new. They are progressive in maintaining metropolitan stores. The city is supplied with publications of the highest class. Two daily and 3 weekly newspapers cover their respective fields in a most satisfactory manner. Among the more important industrial concerns are several cotton gins, a cotton compress, 2 cotton oil mills, planing mills, flour mills, ice plant, handle factory, crate factory, box factory, peanut factory, chair factory, bottling works, mattress factory, canning factory, brick works, foundries, etc.

It has first-class hotels, electric light, water works, local and long distance telephone facilities, unrivaled facilities for commercial and manufacturing enterprises; a splendid location both in regard to climatic conditions and the possibilities of great development and all the attributes of a modern metropolis. Municipal improvements already established, their extension and the realization of others only contemplated at present, but certain of accomplishment, will help the city's growth. Paris is one of the best fields for legitimate enterprises that can be found anywhere and its citizens will help along a new industry in every possible manner to an extent unapproached by any other city in the state. Tel., Postal and W. U. Exp., Am., U. S. and W. F. & Co. James J. Dickerson, postmaster.

PECOS.

Population 2,500. An incorporated city on the T. & P., the A. T. & S. Fe and the P. V. S. Rys., in Reeves county of which it is the county seat. It is located in the center of one of the largest irrigated belts in the state of Texas, 90 miles east of Van Horn. Has 6 fine churches of the Baptist, Catholic, Christian, Episcopal Methodist and Presbyterian denominations. The Baptist costing $30,000; Christian $20,000, and the Methodist $25,000. Also a $25,000 modern high school building. The T. & P. Ry., has just completed a $30,000 depot and a $10,000 Carnegie Public Library is under construction. Has 4 hotels, 2 banks, a light and ice plant, cotton gin, alfalfa mill, many other smaller concerns and opera house seating 300, a semi-weekly newspaper, The Pecos Record-Times, a commercial club composed of live business men who have done much to put the city on a good sound financial basis, cotton, grain and live stock are the principal shipments. One feature that has made Pecos known far and wide is the famous Pecos Valley cantaloupes shipped all over the United States and said to be superior to the famous Rocky Ford Exp., W. F. & Co. Tel., W. U. Telephone connection. G. E. Sapp, postmaster.

PLAINVIEW.

Population 5,000. Elevation about 3,000 feet. County seat of Hale county. Located on the A. T. & S. F Ry., 78 miles south of Amarillo. Plainview is the second largest city on the Texas plains, and is the center of the wealthiest agricultural district in West Texas. The city has made a phenomenal growth since the coming of the Santa Fe railroad a few years ago. Changing rapidly from a pioneer "cowtown" to the principal agricultural, educational and commercial center of the south plains. It prides itself on being the home of Wayland Baptist College and Seth Ward Methodist College and has three-quarters of a million dollars invested in schools and churches. Has churches of Methodist, Baptist, Presbyterian, German Lutheran, Christian, Holiness, Catholic and Non-Progressive Christian denominations. There has never been a saloon in Hale county, and Plainview is recognized as one of the cleanest and most moral towns in the state. Plainview has three national banks with $100,000 capital stock each, five lumber yards, three wholesale houses, grain elevators, flour mills, planing mill, sub-irrigation and drainage tile factory, steam laundry plant, $30,000 opera house, $100,000 court house good hotels, cotton gin, cement sidewalks, modern sewer system and water works, electric light and ice plant, one semi-weekly newspaper, the Herald, one weekly, the News, and one semi-monthly religious publication, the Plains Baptist, and an excellent class of retail stores. The business portion of the city is practically all of brick or concrete construction. The residence district is artistic and up-to-date and the beautiful homes are surrounded by blue grass lawns, and shade and ornamental trees. Practically all secret orders are represented, many having commodious homes As a result of her enterprising people and unrivalled natural advantages, Plainview is destined to become one of the important cities of West Texas. The climate and atmosphere is healthful and invigorating. Health is contagious here, rather than disease. Plainview has no malaria, no yellow fever, no disease ladened mosquito and no tuberculosis or asthma. The mortality statistics are as low as any place in the world. The summer temperature usually ranges from 60 to 90 degrees. The winters are short and the thermometer seldom reaches zero. The growing season is from 6 to 9 months, permitting the growth of all general farm crops, fruits and vegetables. The precipitation in this section for the last twenty years has averaged 24½ inches per annum. Three-fourths of this precipitation occurs during the growing season, and the soil is of a nature well adapted to the retention of moisture. Therefore but little irrigation is required to supplement the rainfall and to insure bounteous crops.

The Plainview country is smooth and level, save for a general slope to the southeast of about ten feet to the mile. Geologists claim that this area was once the bed of a vast inland sea but that it became drained by earthquake action, causing the south and east borders to drop. This theory explains not only the drainage slope but the even deposits of marl, loam and clay which make up the soil. This section is covered to a uniform depth of three to six feet with a fertile loam soil, varying in color from chocolate to black with just enough sand to scour a plow and permit water to percolate easily. The soil does not bake, sour or pack. Underlying the loam is a clay foundation from 16 to 20 feet in thickness. It is easily penetrated by the roots of alfalfa and kindred plants. There are no rocks, roots or grubs to hinder cultivation. This entire section is underlaid with an apparently inexhaustible supply of sheet water at a shallow depth of 30 to 60 feet. This water occurs in strata of sand and gravel and extends down several hundred feet. The source of this water supply is thought to be the melting snows of the Rockies. The flow is slowly towards the southeast. This vast sheet of water is being developed for irrigation purposes. A number of wells have been drilled and pumping plants installed, having a capacity of 1,000 to 1,500 gallons per minute. The centrifugal pump is mostly used, operated by gasoline or oil burning engines, and the combined pumping from all these wells has failed to make any decrease in the water head. The water, flowing for hundreds of miles through natural filters, is shown on analysis to be 99.8 per cent pure, containing no trace of alkali or other injurious ingredient to plant or human life The union of pure water and perfect soil produces almost incredible crops The shallow and inexhaustible water supply with the levelness of the land makes this section an ideal one for irrigation at a minimum cost. It would seem that nature has created this section to be developed into one vast irrigated garden—easy to irrigate, anxious to produce without one foot of waste land. The cost of irrigation in this section with a properly constructed centrifugal pump and engine is estimated at 75 cents to $1 for an acre foot of water. This is sufficient to cover the land twice to a depth of six inches each time, which in addition to the natural rainfall, insures maximum crops each year. One well flowing from 1,000 to 1,500 per minute will easily take care of 160 acres while the cost of construction and upkeep of ditches is nominal. The soil and climate are well adapted to growth of all general farm crops, livestock breeding, raising and feeding and the raising of all fruits, melons, celery, peanuts, all kinds of berries and vegetables. Alfalfa is a natural crop and grows as naturally and roots as easily as do weeds in other sections. Many of the products of this district have taken first premiums at the Texas State fairs and they are surely and swiftly winning a reputation in the markets of the north and east for flavor and excellence. The marketing facilities of the Plainview district are good, with reasonable transportation rates. It has direct railroad facilities to Denver, Chicago and Kansas City to the north and northeast; to Ft. Worth and Dallas and the bulk of Texas, to the east and to Houston, San Antonio, Galveston and other cities of the south. No section in the United States can offer better and surer results for the investment of time, capital and labor, than this Plainview country and with the further development of its resource the once semi-arid plains will blossom as a garden Tel., W. U. Exp., W. F. & Co. Telephone connection. George C. Keck, postmaster

Thompson A C, confectioner.
Wilson W H, printer.

PORT ARTHUR.

Population 12,600. Incorporated as a city in 1897, is located on the west bank of Sabine Lake and on the K. C. S. and S. P. Rys., and Beaumont-Port Arthur Interurban, in Jefferson county, 18½ miles southeast of Beaumont, the county seat, and 103 from Houston. Ranks as the twelfth port in the United States and is the second largest oil refining point in the country. During the fiscal year ending June 30, 1913, there were moved through this port 2,882,150 net tons of export and coastwise freight, valued at $47,538,586. The inland location, 12½ miles from the Gulf of Mexico, affords absolute protection from damage by gulf storms. The harbor and docks are reached through a canal, 270 feet wide and 27 feet deep. This canal is owned and maintained by the United States government. The city has churches of the leading denominations, a fine public school system, the building alone costing over $200,000, a commercial college, a $75,000 hospital, a $20,000 public library, first class hotels, lodges of the prominent secret and benevolent orders, 9 miles of paved streets, 25 miles of cement walks, municipally owned water and sewer systems, modern electric and gas systems, an efficient fire department, street railway, local and long distance telephone facilities, 2 banks, 2 live newspapers, and hundreds of substantial business buildings and attractive dwellings. In the past twelve months the city has expended $500,000 in such improvements as street and sidewalk paving, new administration and fire department buildings. Port Arthur is a famous summer resort. It lacks the killing heat of northern cities and the nights are invariably cool. Lake Sabine one of the finest sheets of water along the entire Gulf coast, is almost land locked of moderate depth, well protected and safe for pleasure boating, rowing, yachting, fishing, bathing and aquatic sports of every kind. In the waters of the lake, the rivers entering into it, Sabine Pass and the open Gulf, are Spanish mackeral, trout, flounders, bass, redfish, sheephead, tarpon and other fishes. During the winter season the climate is everything that can be desired. Fishing and boating are still good and the adjacent hunting grounds teem with every variety of water fowl. The local industries provide a monthly payroll of over $300,000, the largest for the population of any city in the south. The roads in the vicinity are all macadamized at a cost of $5,000 per mile, making this an ideal section for auto trips. Tel., Mackay, Postal and W. U., Exp., W. F. & Co. W. P. Park, postmaster.

REFUGIO.

Population 800. An unincorporated village on the Mission river and on the St. L. B. & M. Ry. in Refugio county, of which it is the county seat, 60 miles northwest of Corpus Christi. It is one of the oldest towns in Texas, dating its settlement in 1790. Refugio county was the battleground for many fierce struggles in the war for Texan independence from Mexico. Here Capt. King and his volunteers were massacred by the Mexicans. A beautiful monument has been erected by the state in memory of Capt. King and his band of martyrs. The town of Refugio is well surrounded by immense tracts of fertile lands, held intact as cattle ranches. Has Presbyterian and Catholic churches, a bank, a weekly newspaper, the Review, and a cotton gin. Tel., W. U., Exp., W. F. & Co. Charles E. Simpson, postmaster.

Adkins Leslie, county judge and superintendent of schools.

ROCKDALE.

Population 3,000. An incorporated city, located at the junction of the I. & G. N. and the S. A. & A. P. Rys., in Milam county, about 15 miles southwest of Cameron, the county seat. Rockdale is the center of the great lignite district of Texas. A number of companies are successfully operating here and about 7,000 cars of lignite are shipped annually from this point, having an approximate value of $250,000. Rockdale is also the center of a rich agricultural district. Cotton is the principal crop. General farming and stock raising are extensively carried on. Has Baptist, Methodist, Christian, Presbyterian and Lutheran churches, good public schools, 3 banks, a weekly newspaper, the Reporter, 3 cotton gins, a compress and oil mill, 2 wholesale grocery houses, good hotels, machine shop and bottling works. Tel., W. U., Exp., W. F. & Co. Telephone connections. John A. Shapard, postmaster.

Sample Gin Co.
Sample Mercantile Co, general store.

SAN ANGELO.

Population 10,321 (U. S. Census 1910). Elevation 2,000 feet. Located near the confluence of the North, South and Middle Concho rivers, on the K. C., M. & O. of T., and G. C. & S. F. Rys, 243 miles southwest of Ft. Worth and 451 northeast of El Paso. The city dates its settlement about 1882, when it succeeded the town of Ben Ficklen as the county seat of Tom Green county, the latter town having been destroyed at that time by the flood of the Concho river.

San Angelo's geographical location has contributed much to its growth. In this particular section the natural supply and abundance of pure water was of first importance. The early settlements followed the rivers and the trails followed the settlement, hence we find San Angelo the natural metropolis for southwest Texas. In 1868 the Federal government established Fort Concho near the forks of the Concho rivers. The site of the Fort is now near the heart of the city. The natural advantages caused early settlers to gravitate to San Angelo and a trading center was soon established. San Angelo is the center of a cattle and sheep producing country. The raising of Angora goats is developing and quite a number of herds of these goats may be seen in this section, yielding a good profit to their owners. San Angelo is one of the largest wool centers in the United States. The climate and health giving atmosphere is San Angelo's greatest asset—especially to those afflicted with tubercular, asthmatic or catarrhal troubles. The atmosphere is dry and invigorating and extreme and sudden changes of temperature are seldom experienced. San Angelo has churches of the leading denominations, has good public schools and private commercial school; has 4 strong banks, one newspaper, The Standard (daily and weekly), 2 wholesale grocery and one wholesale dry goods houses, 2 ice plants, 2 steam laundries, planing mills, foundry and machine shop, grain elevators, cotton gins, bottling works, 2 sanitariums, cotton seed oil mill, cotton compress, paved streets, sewer and water systems, electric light and gas plant, street railway and all improvements which make up a modern city. There is a good opening here for a creamery and a broom factory. Those interested may get further information by addressing W. A. Day, secretary Young Men's Business Club.

San Angelo has a handsome Federal building, cost $125,000, in which are held two terms annually of U. S. District Court for the Northern District of Texas; $25,000 fair grounds, good county court house, substantial business blocks of modern architecture and a city of beautiful homes. Established auto passenger and mail lines operate between this city and towns far removed from railroads. Tel., W. U. Exp., Am. and W. F. & Co. Telephone connections. Edward Blanchard, postmaster.

SAN ANTONIO.

Population 130,000. The judicial seat of Bexar county, is located on the G. H & S. A., the I. & G. N., the M. K. & T., the S. A. & A. P. and the S. A., U. & G. Rys, 79 miles southwest of Austin. This is a place of great historical interest, being the location of the famous Alamo. Here it was that Crockett, Travis and Bowie and a handful of men withstood the assault of over 3,000 Mexicans, leaving nearly a thousand of the enemy dead and dying before they, themselves, perished in the cause of Texas freedom. The next moon saw the battle of San Jacinto, where Houston led to victory his little army, crying, "Remember the Alamo," and established the independence of the Republic of Texas. The chapel of the Alamo, in which the heroes fought, was purchased by the State in 1883, and the barracks adjoining the chapel in which much of the fighting occurred, was purchased by the State in 1905, and are being restored as nearly as possible to their appearance in the fateful year of 1836.

San Antonio is the busiest, richest, cleanest city of its size in the Union. No phase of modern cultivation or convenience is lacking. Magnificent shops and hostelries; avenues of well-shaded modern homes; the most perfect system of paving and draining; parks and squares that would be impossible in the rigorous climes of the north and east; a perfectly equipped street railway service; public buildings that are not surpassed in beauty and efficiency by any of the larger cities; lodges of the leading secret and benevolent orders; miscellaneous clubs and societies of every description; and a social environment expressive of all that is best and most wholesome in American life tell the story of civilization and prosperity and of social and individual progress.

There are 72 churches and missions of the Baptist, Catholic, Christian, Christian Scientist, Evangelical, Evangelical Association, Jewish, Lutheran, Methodist Episcopal, Presbyterian and Protestant Episcopal denominations and over 5 public and private schools and colleges. There is a thoroughly equipped and efficient fire department with 14 stations and halls, 6 steam engines, 2 motor trucks, 12 hose trucks, 2 chemical engines, 3 hook and ladder trucks and 55 horses; a splendid system of waterworks embracing a large reservoir, 2 pumping stations, 190 miles of water mains and 760 fire hydrants; there are miles of street, paved at a cost exceeding $500,000; a $75,000 public library, a chamber of commerce ranking among the livest in the country, and the city has an assessed valuation of over $93,000,000.

Beautifully situated in the suburbs of San Antonio is Fort Sam Houston, the largest military post in the United States. Congress established this as one of the great brigade posts and purchased 18,000 acres of land that is used in developing tactical problems that simulate actual warfare. The lay of the land is ideal, and this, combined with the natural advantages of pure water and delightful climate make a rendezvous suitable to mobilize and manoeuver a large army. Fort Sam Houston is a veritable park. The spacious walks are flanked with semi-tropical trees, under whose foliage citizens and tourists listen to band concerts or watch troops in evolution. As a health resort San Antonio is famous the country over, particularly for the cure of lung and throat troubles. The atmosphere is ideal and the altitude 650 feet above tidewater. There are a number of large and fully equipped hospitals in the city besides private hospitals and sanitariums for the treatment of special cases.

ADVERTISING

What Is An Advertising Agency?

Frequently we find men ACTUALLY LOSING MONEY because they do not know what an Advertising Agency is.

An Advertising Agency is an organization usually devoted to PRINTED SALESMANSHIP; that is the writing, printing and distribution of advertisements.

For instance, we ourselves represent 1200 Texas Newspapers, to say nothing of the thousands of newspapers and magazines outside the state. We can place your ad ANYWHERE at the same rates you pay direct.

But that is merely one feature. We write booklets, circular letters, cards, folders, etc., sell bulletins, furnish printing, and make drawings and art designs.

But probably our most valuable service is the planning and execution of entire campaigns. Our creative ability keeps our customers abreast of the times, and our experience prevents costly errors.

If you advertise at all, please write for full information; also ask for newspaper combination rate lists.

FREE ADVISORY SERVICE

For the convenience of our friends we maintain a Free Advisory Service, and will delight in answering any questions that you care to submit.

STAR FIRE BRICK

Will last three times longer than any other. Don't take our word for it but ask parties who have used them. Hundreds of testimonials can be furnished. Here is one who has tried them:

Star Clay Products Co., San Antonio, Texas. Feb. 26. 1913.

Gentlemen:—

Replying to your letter of the 22nd, will state that our furnaces appear to be perfectly good. We have done nothing to them since we put in your fire brick in 1910, and from their looks we do not think we will need any more brick this year, as they seem to be good enough for another season, and perhaps longer.

You can rest assured that whenever we are in need of any fire brick, we will be sure to buy yours, as we consider them worth two or three times any other fire brick made.

Yours very truly,

FT. WORTH COTTON OIL CO.,
(Signed) F. A. Blain, Gen. Mngr.

Wagner Sand Co.

Miners of the finest silica sand that ever came to this market. Absolutely clean, needs no cleaning or washing. We get it out of a dry river bed. Output 20 cars per day. We own our own railroad and equipment.

THE RICE

HOUSTON, TEXAS

Located on the site of the first capitol of Texas, the very center of Houston. Take a car; it will put you right at the door.

cial and manufacturing enterprises, a splendid location, both in regard to climatic conditions and the possibilities of great development, and all the attributes of a modern metropolis, San Antonio occupies a position of eminence in the state. In the past few years the progress of San Antonio has been truly wonderful. New enterprises have sprung up and are now experiencing a genuine and lasting prosperity. Today the city is the center of a thriving set of manufacturing institutions. The opportunities offered for business enterprises that have already been taken, have all resulted in success to the firms which grasped them. San Antonio is one of the best fields for legitimate enterprises that can be found anywhere and its citizens will help along a new industry in every possible manner. It is hoped that any manufacturer or any persons interested in business who may read this will seriously consider whether it would not be to his interest to examine the claims made by San Antonio, with a view of transferring to or establishing a branch of his business in this city. Write the Chamber of Commerce for any desired information.

Abreast of the times not only in manufacturing, civic and other activities, but in the hospitality it affords the visitor, San Antonio boasts the possession of some of the finest hotels in the state. Of course the hotels are not all in the same class. They vary in accommodation as well as in prices and thus meet the varied requirements of all classes of guests. The finest of them furnish a class of attractions, fare and service to satisfy the exacting demands of those familiar with the most famous hostelries of the country. The others, graded down to some very inexpensive houses, each in its class adds to the general repute of the city as one not surpassed by any of its size anywhere in the manner it caters to the needs of permanent guests or of strangers within its gates.

In all other branches of public convenience San Antonio is up to the standard of highest efficiency and in all ways endowed with the factors and forces destined to provide for the development of the city along progressive lines of progress. No city of its size in the world has so great a number and acreage of beautiful public parks as San Antonio, and scattered throughout the city from its solidly built center to the furthest suburbs, it is dotted with garden square places, small parks, and private pleasure grounds. Something of the old Spanish love of fountains, rare foliage and flowers is expressed in the marvelous splendors of these little gems of landscape gardening, but after all it is the peculiar richness of the native soil, the fructifying balminess of the climate and the almost perennial warmth of the sunshine that have made possible the fine floral and arborial effects of these ever-blooming parks.

Although the waters of San Antonio river and San Pedro creek are now used almost wholly for irrigation or manufacture, they are two of the chief contributors to the picturesqueness of the city. Within the city these streams flow in every direction, so that more than 2,000 bridges are required for the needs of the city traffic. Many of these viaducts are of the most modern kind; seventeen of them are models of the strength and symmetry of the twentieth century steel bridge building art, and all of them offer vistas and perspectives that cannot be matched for sheer lovliness within the limits of any other city.

Although San Antonio has long been recognized as the headquarters and distributing point for the enormous cattle business of Central and Southwestern Texas, yet this branch of its activities is surpassed in volume and values by other branches of its constantly enlarging business. The amount of cotton wool, hides and other raw materials, the aggregate of wholesale and retail traffic and the amount of manufacturing carried on in the city would be adequate for the comfortable support of a city of three times the population.
